NEW ADMINISTRATION BUILDING

Prospectus for 1928-1929

PROSPECTUS FOR 1928-1929

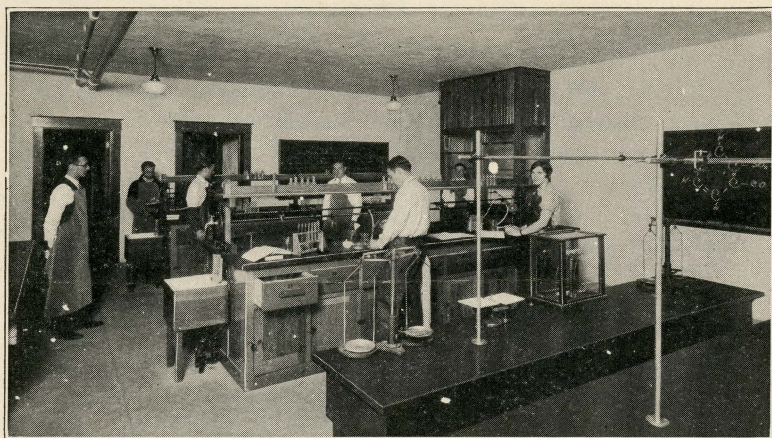

PIKEVILLE COLLEGE is located at Pikeville, Kentucky, on the Levisa fork of the Big Sandy River, in the foothills of the Cumberland Mountains. The institution was founded in 1889—the first graded school in Pike County. Since that time it has grown steadily, adding high school and, later, college work, until now it is a fully accredited Junior College in Class A, offering two years of standard college work. In connection with the Junior College are maintained a Junior High School and a Senior High School, offering college preparatory work and teacher training of high standard.

Situated as it is in the heart of the mountain region of Eastern Kentucky, Virginia and West Virginia, Pikeville College presents a remarkable opportunity for young men and young women of this section to procure, within a convenient distance from home, all the advantages of the first two years of a standard college course. Although under the control of the Presbyterian Church, Pikeville is by no means a sectarian school. The tenets of no denomination are taught. Students are, to a certain extent, placed upon their own responsibility, yet they are surrounded with a distinctly religious atmosphere, and are encouraged to affiliate themselves with some religious organization.

The college faculty consists of men and women who are exceptionally well prepared for their work. All of them are college graduates, and the majority of them have also received the master's degree or have done post-graduate work equivalent to it. Each instructor is a specialist in the field in which he teaches. The moderate size of the classes at Pikeville College makes possible that personal touch between teachers and students which is so helpful in the first years of the college career.

COURSES OF STUDY OFFERED

Pikeville College offers courses of study embracing the first two years of the work leading to the Bachelor of Arts and the Bachelor of Science degrees, Pre-legal, Pre-medical and Pre-dental courses, and courses entitling the student to teachers' certificates, as listed below. Work in any course may be transferred to another institution at full value. A

CLASS OF PRE-MEDICAL STUDENTS IN ORGANIC CHEMISTRY

minimum of sixty hours of work is required in each two-year course, completion of which entitles the student to graduation from the Junior College.

1. Two-Year Classical Course leading toward the Bachelor of Arts degree.
2. Two-year Scientific Course leading toward the Bachelor of Science degree.
3. Two-year Pre-medical Course offering the requirements necessary for entrance to medical school.
4. One-year Pre-dental Course fitting a student to enter dental school.
5. Two-year Pre-legal Course offering work which prepares for entrance to a college of law.
6. Two-year Teachers' Course giving the work required for obtaining a standard elementary certificate or a provisional high school certificate without examination.
7. Semester (half-year) Teachers' Course giving the work required for obtaining, or renewing, a provisional elementary certificate without examination.

The courses of instruction are organized under nine departments: English, Ancient Languages, Modern Languages, Mathematics, Natural Science, History and Economics, Education, Bible and Music. The Music Department offers both vocal and piano training.

The new Administration Building contains newly equipped, up-to-date laboratories for Domestic Science, Biology, Chemistry and Physics, in addition to a well-furnished library and fourteen large, attractive class rooms.

STUDENT ACTIVITIES

In addition to a strong curriculum, the student at Pikeville College finds a variety of valuable extra-curricular organizations. Among these may be mentioned athletic teams, glee clubs, literary societies, school publications, debating and declamation teams, and other social and religious societies. The athletics, which consist principally of basketball, baseball and tennis, are under the supervision of a competent athletic director. For the past several years the Girls' Glee Club has made a tour of the neighboring States, and has been highly commended for its excellent performances. All the school activities are under the supervision of members of the faculty. Students are encouraged to take an active part in at least one extra-curricular activity, but are limited in the number in which they may engage, in order that their studies may not suffer thereby.

BOYS' BASKETBALL TEAM

REQUIREMENTS FOR ADMISSION

Admission to the College is based on fifteen units of work done in an accredited high school, nine of which are required to be as follows:

| | |
|------------------------|---------|
| English | 3 units |
| Foreign language | 2 units |
| Algebra | 1 unit |
| Plane geometry | 1 unit |
| History | 1 unit |
| Science | 1 unit |

A unit represents a subject pursued for thirty-six weeks, five forty-minute periods a week, or for an equivalent length of time, completed with a passing grade. It is strongly recommended that students wishing to take the Classical Course present at least four units in foreign language, and that those wishing to take the Scientific, Pre-dental or Pre-medical Courses present two units of algebra and at least two units of science, including chemistry. Students from high schools which are not accredited are required to take examinations covering their high school work. Any student who can offer fifteen acceptable units, but who lacks one required unit, will be admitted as a conditional freshman, with the understanding that the delinquent unit be completed during the first year.

PREPARATORY AND NORMAL DEPARTMENTS

The Preparatory Department, conducted as a Junior and a Senior High School, is accredited in Class A by the Kentucky Department of Education and the Association of Colleges and Secondary Schools of the Southern States. An excellent curriculum of college preparatory work is offered in both the classical and scientific courses.

In addition to the College Teachers' Courses, the Normal Department is accredited by the Kentucky Department of Education for granting and renewing provisional elementary certificates, under Sections 4535-10 and 4535c-1 of the Kentucky Statutes, as follows:

1. Provisional elementary certificate, valid for two years, is granted upon completion of eight units of high school work, including observation and practice teaching and prescribed normal subjects.

GIRLS' CHORAL CLUB

2. Elementary certificate will be renewed for two years upon completion of two additional units of high school work, including prescribed normal subjects.

Students in the preparatory and normal departments enjoy much the same advantages as the college students. They have their own athletic teams and literary societies, and are eligible for membership in the glee clubs, student publications and other organizations.

EXPENSES

Tuition for college students is \$22.50 each semester, payable in advance. Tuition for preparatory and normal students is \$3.50 each month, payable in advance. In addition there are laboratory fees for the various courses in science, and an extra charge for vocal and piano lessons.

Room and board may be obtained in the Derriana, the dormitory for girls, and in Hendrick Hall, the dormitory for boys, at the very low rate of \$12.00 a month, payable each month in advance, plus a \$3.00 contingent fee at the beginning of the first semester and a \$1.00 contingent fee at the beginning of the second semester. Room and board for boys may be obtained in private homes at somewhat higher prices.

There is opportunity for a limited number of students to pay all or part of the room, board and tuition charges by working in the college buildings. Following is an estimate of the expenses for one semester and for the entire year in both the college and the preparatory department.

College

| | |
|---------------------------------------|----------|
| Tuition (semester) | \$22.50 |
| Board and room (in dormitory)..... | 54.00 |
| Contingent fee | 3.00 |
| Laboratory fee (average)..... | 4.00 |
| Books (estimated) | 8.00 |
| Laundry (estimated) | 9.00 |
| Incidentals (estimated) | 5.00 |
| <hr/> | |
| Estimated total for one semester..... | \$105.50 |
| Estimated total for entire year..... | 211.00 |

Preparatory and Normal Departments

| | |
|--|---------|
| Tuition (reduced to \$3.00 per month to students in dormitories) | \$13.50 |
| Board and room (in dormitory)..... | 54.00 |
| Contingent fee | 3.00 |
| Laboratory fee (average)..... | 3.00 |
| Books (estimated) | 6.00 |
| Laundry (estimated) | 9.00 |
| Incidentals (estimated) | 5.00 |
| <hr/> | |
| Estimated total for one semester | \$93.50 |
| Estimated total for entire year..... | 187.00 |

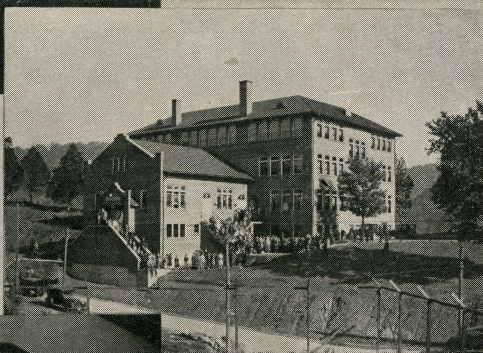

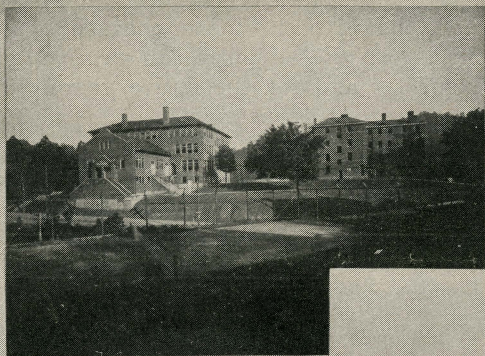

Vocal and piano lessons are extra, at the rate of \$4.00 a month (payable in advance) for two thirty-minute lessons each week. Pianos in the dormitories may be used for practice at a charge of fifty cents a month.
